UTM Northing	4851477

Substance:	Chromium (and its compounds)		
CAS Number:	NA-04		
On a facility-wide basis:	Amount	Units	
Amount that entered the facility as the substance itself or as a constituent of another substance:	> 10 to 100	tonnes	
The amount of substance that was created:	0.000	tonnes	
The amount of substance that was contained in product:	> 10 to 100	tonnes	
On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inrp-npri/ .			

Substance:	Nickel (and its compounds)		
CAS Number:	NA-11		
On a facility-wide basis:	Amount	Units	
Amount that entered the facility as the substance itself or as a constituent of another substance:	> 10 to 100	tonnes	
The amount of substance that was created:	0.000	tonnes	
The amount of substance that was contained in product:	> 10 to 100	tonnes	
On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inrp-npri/ .			

Comparison of Annual Reported Amounts

Substance:	Chromium (and its compounds)			
CAS Number:	NA-04			
On a facility-wide basis:	2016	2015	Difference	
Amount that entered the facility as the substance itself or as a constituent of another substance:	tonnes	tonnes	tonnes	%
The amount of substance that was created:	> 10 to 100	> 10 to 100	> 10 to 100	-22.87%
The amount of substance that was contained in product:	0.000	0.000	0.00	0%
On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inrp-npri/ .	> 10 to 100	> 10 to 100	> 10 to 100	-28.08%

Substance:	Nickel (and its compounds)			
CAS Number:	NA-11			
On a facility-wide basis:	2016	2015	Difference	
Amount that entered the facility as the substance itself or as a constituent of another substance:	tonnes	tonnes	tonnes	%
The amount of substance that was created:	> 10 to 100	> 10 to 100	> 1 to 10	-23.91%
The amount of substance that was contained in product:	0.000	0.000	0.00	0%
On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inrp-npri/ .	> 10 to 100	> 10 to 100	> 1 to 10	-29.00%

Substances for which toxic substance reduction plans have been prepared:

Substance Name	CAS #	Date
Chromium (and its compounds)	NA-04	September 10, 2014
Nickel (and its compounds)	NA-11	September 10, 2014

Objectives

DCL does not intend to reduce the use of Chromium and Nickel at this time. Chromium and Nickel are used in several types of steel, welding wire and electrodes. DCL-Millway is committed to ensure that Chromium and Nickel are used in a responsible and efficient manner. Chromium and Nickel are created at the facility as a combustion by-product in negligible quantity.

Toxic Reduction Progress

The current reporting year saw decreases for chromium and nickel primarily due to decrease in the facility's production in 2016 for several materials and material reformation.

Plan Implementation Progress

There were no reduction options identified in any of the plans for the above noted substances that were identified as being both technically and economically feasible. No additional actions outside the plans were taken in 2016 to reduce the use and/or creation for any of the reportable substances. No amendments were made to the toxic substances reduction plans in 2016.

Report Submission and Electronic Certification

NPRI - Electronic Statement of Certification

Specify the language of correspondence

Comments (optional)

I hereby certify that I have exercised due diligence to ensure that the submitted information is true and complete. The amounts and values for the facility(ies) identified below are accurate, based on reasonable estimates using available data. The data for the facility(ies) that I represent are hereby submitted to the programs identified below using the Single Window Reporting Application.

I also acknowledge that the data will be made public.

Note: Only the person identified as the Certifying Official or the authorized delegate should submit the report(s) identified below.

Company Name

DCL International Inc.

Certifying Official (or authorized delegate)

John Muter

Report Submitted by

John Muter

I, the Certifying Official or authorized delegate, agree with the statements above and acknowledge that by pressing the "Submit Report(s)" button, I am electronically certifying and submitting the facility report(s) for the identified company to its affiliated programs.

ON MOE TRA - Electronic Certification Statement

Annual Report Certification Statement

As of 31/05/2017, I, John Muter, certify that I have read the reports on the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.
